

## NB-500 Automatic calendar hanger Forming Machine

### Advantages:

This machine can make the steel wire, coated steel wire, galvanizing wire automatically straight, cutting and forming to be the calendar hanger.

Program setting by use Touch-screen and PLC. Make it high accuracy and quality. With safety device on the machine,make sure safe production.

With high speed puncher,make the machine with fast production speed  
By changing mold can make different size of hanger

### Specifications:

Max.forming length:500mm

Min.forming length:80mm

Main machine dimension:1.52m\*0.6m\*1.40m

Raw material loading frame:0.8m\*0.8m\*1.10m

Total Power:1.6kw

Weight:300KG
